

Cookies

Hacona uses cookies and similar technologies, such as HTML5 web storage and local shared objects (all referred to as 'cookies' below), to record the preferences of users and optimize the design of its websites. They make navigation easier and increase the user-friendliness of a website.

Cookies are small files that are stored on your end device. They can be used to determine whether there has been any contact between us and your end device in the past. Only the cookie on your end device is identified. Personal data can only be saved in cookies if you have given your consent or if it is essential for technical reasons, e.g. to enable a secure login.

By using our website, you consent to the use and storage of cookies on your end device. However, you can also view our website without cookies. Most browsers accept cookies automatically. You can prevent cookies from being saved on your end device by setting your browser to not accept cookies. You can delete cookies stored on your end device at any time. The exact instructions for how to do this can be found in the manual for your browser or end device. Further information about deactivating local shared objects can be found [here](#):

Information about deactivating local shared objects:

If you choose not to accept cookies it may result in a reduced availability of the services provided on our website.

Analysis of usage data:

We use cookies to track the preferences of visitors and to identify especially popular sections of our website. In this way, we can adapt the content of our website more specifically to your needs and thereby improve what we offer you.

For the purpose of statistical analysis Hacona uses Adobe Omniture products.

If you do not wish Hacona to collect and analyze statistical data related to your visit you may object to the future use of your data at any time (opt-out).

For the technical implementation of your objection it is necessary to install an opt-out cookie on your browser. This cookie will only indicate that you have opted out. Please note that for technical reasons the opt-out cookie will only affect the browser you object from. If you delete the cookies in your browser or use a different end device or browser, you will need to opt out again
